EXPERIENCES

Here's a summary of MY accomplishments:

- Successfully finished a full-stack web development course via an Internshala internship.

- Completed a full-stack web development internship with Varcons Technology.

- Effectively concluded a machine learning with Python role at Compsoft Technologies with marked success.

PROFILE

Desire to work in an organization that allows for personal and professional development while contributing to the company's growth.

PROJECT'S

Here are some potential programming projects to consider:

- Build a car rental management system that uses HTML, CSS, JavaScript, PHP, DBMS, and Apache server.

- Create a 2D maze game that employs open GL libraries for computer graphics and visualization.

- Develop a fitness application that utilizes Android Studio to help users track and maintain good health.

- Conduct research on lip-to-speech technology by using machine learning with Python.

- Create a photography portfolio gallery that showcases your work using HTML, CSS, and JavaScript.

WORKSHOP

BY ENROLLING AT CODES LEARNING, YOU WILL HAVE ACCESS TO AN EXCEPTIONAL FRONT-END DEVELOPMENT COURSE INSTRUCTED BY ANIRUDH KHURANA.

SKILLS

- HTML
- CSS
- JAVASCRIPT
- SQL

EDUCATION

EDUCATION BACKGROUND:
HERE ARE THE DETAILS OF MY EDUCATIONAL JOURNEY:

- SSLC (2018) FROM ST. MARY'S ENGLISH MEDIUM SCHOOL SUNTICOPPA

- PRE-UNIVERSITY COLLEGE (2019-20) FROM HASSAN PU COLLEGE ARAKALGUD
